Extended Metaphor

An extended metaphor is a [metaphor](#) (a comparison where one thing is called another) that continues into the sentences that follow. On page twenty-nine, there is an extended metaphor. Reread the following passage:

*... Is there anything uglier or sadder than a ten-day old snow dump? It's not even snow anymore. It's slush.
Was that beginning to be us, Leo? I'd rather never see you again than have that happen. **We were once so fresh, a dazzling snowfield.** Let's promise to each other that if we ever meet again **we will never plow and push our new-fallen snow. We will not become slush.** We will stay like this field and **melt away together only in the sun's good time.***

The metaphor begins with **We were once so fresh, a dazzling snowfield**. She is talking about her relationship with Leo, of course. Then, the author extends this metaphor by weaving in the bolded words that go along with snow. An extended metaphor does not just exist in prose (paragraphs). They are often found in poetry as well. The lines from the passage could be made to look like a poem.

We were once so fresh, a dazzling snowfield.
Let's promise to each other
that if we ever meet again
we will never
plow and push
our new-fallen snow.
We will not
become slush.
We will stay like this field
and
melt away
together
only in the sun's
good time.

You try it!

It is easy to create an extended metaphor. Let's try one as a poem.

Start with this metaphor: **Life is a snowflake.**

Now, write a list of things, sights, sounds, experiences that come to mind when you think of a **snowflake**.

Finally, write your poem. Let your first line be *Life is a snowflake*. Then, weave in the words that you listed throughout your poem.

Life is a snowflake

Sample Extended Metaphor Poem

Step one: Make a list of words that you associate with a snowflake.

Life is a snowflake

Cold
Beautiful
Unique
Unexpected
Fun
Delicate
Peaceful
Blizzard
Dusting

Step 2: Write the poem. Begin with the metaphor, and weave in the words you have listed.

Life

Life is a snowflake.
It has its share of unexpected events
but it is also
delicate and beautiful!
If you will just keep your
eye on what's important
and keep warm during the cold times,
those blizzards won't keep you down.
And the
uniqueness
is all that really counts
in each season
of life.

Figurative Language

Writers use figurative language to make their writing more interesting and effective. By using a simile, metaphor, or personification, the writer is able to paint a picture in the mind of the reader.

Simile – a comparison of two things using the words *like, as, or than*

Metaphor – calls one thing another

Personification- gives a nonhuman object human traits

Hyperbole – an extreme exaggeration

Idiom – a commonly used expression that means something totally different than what it says

Poetry Elements

Stargirl's letters to Leo include many poems – some are written on purpose – others are written by accident. For example, reread the beginning of her August 25 letter. The first paragraph sounds like a poem! Look at it here rewritten to look like a poem.

The mockingbird does not dump me.
The mockingbird has no harem.
The mockingbird takes nothing,
Demands nothing.
The mockingbird does nothing
But give –
Give its song.

Here, Stargirl is really depending on the mockingbird to make herself feel better. She reveals to us that even with her troubles with Leo and Perry, she can find happiness in something as simple and common as a mockingbird. Think about your own world. What is something simple that gives you comfort when you feel down? _____

On a separate sheet of paper, or in your journal, write a poem about this simple thing that brings you joy.
